

PAI GOW POKER STRATEGY CARD

SET THE FRONT 2 AS HIGH AS YOU CAN — WITHOUT BEATING YOUR BACK 5

THE HOUSE WAY (SIMPLIFIED)

- 1 **No pair:** highest card in back, next two in front.
- 2 **One pair:** pair in back, two highest singles in front.
- 3 **Two pair:** split — lower pair in front (keep together only if both are low and you hold an Ace to play up front).
- 4 **Three pair:** highest pair in front.
- 5 **Trips:** keep in back. Trip Aces → split (pair back, Ace front).
- 6 **Straight / flush / full house:** keep in back, two highest in front (full house → play the pair in front).

THE NUMBERS

House edge	~2.5%
(5% commission on wins)	

HOW YOU WIN

- ♦ Win **both** hands to win. Win one, lose one = push.
- ♦ The front 2-card hand can never outrank your back 5-card hand.
- ♦ Bank the action when offered — it lowers the edge.
